

FOOD SAFETY POLICY

We are committed to provide adroit solutions for all our stakeholders consistently, covering the manufacturing operations of single and multilayered flexible packaging (PP, LDPE, Nylon, BOPP, Polyester based) in printed and unprinted forms for food industries by optimizing potentials through synergism, quality, product safety, competency, dedication, professionalism, and maximizing the use of “state-of-art” technology, complying stakeholders and interested parties’ product safety, quality, statutory-regulatory, and all other requirements, while continually improving the management system of ours.

Our operational principles are,

Adopting the changes positively

Ensuring the adequacy of resources

Eliminating threats, vulnerabilities, and frauds

Establishing productive communication channels

Setting and reviewing goals of food packaging Safety
